utrum

Utrum aliquis homo secundum rectam rationem possit appetere divitias
magnas. Primo quod sic, quia liberalis potest appetere divitias quantumcumque
magnas. Consequentia patet, quia liberalis et quilibet virtuosus
potest quantumcumque intense appetere formale suum obiectum
ita quod operatur suam operationem secundum id et divitie. Oppositum patet primo
politicorum textu 2o capitulo [illegible]. Nota per divitias intelligo quantitatem
tam divitias naturales quam artificiales utiles sed quantum ad [illegible]
[illegible] vini et olei et artificiales ut pecunie et alia que [illegible]
sunt. Prima conclusio: quilibet homo licite appetere potest licite ut per-
fecte bona corporis habeat et anime. Probatur: quia quilibet homo appetere
potest licite ut perfecte bonus et felix sed non est perfecte bonus et felix
nisi habeat bona corporis et anime bona. Consequentia patet, quia non dicitur perfecte bonus
in solis bonis anime sed solum secundum quid, ut in extremis bonis corporis
[illegible] quid ut primo ethicorum [illegible] rethoricorum capitulo 2o [illegible]
[illegible] in rethorica sua. Secunda conclusio: quilibet homo secundum rectam rationem
licite potest appetere divitias. Probatur: quilibet homo licite potest appetere
bona corporis, que bona corporis non possunt haberi sine nutrimento
et requisitis ad sustentationem vite, sed ista requirunt divitias
naturales et aliquo artificiales. Tertia conclusio: nullus homo potest licite
appetere plures divitias quam eis indiget. Probatur: si non, tunc sequitur
quod licite potest appetere avariciam. Consequentia quia appetitus ultra
indigentiam est avaricia. Quarta conclusio: nullus homo indiget di-
vitiis quantumcumque magnis. Probatur: divitie solum sunt instrumenta
sustentationis vite et operationum virtutum, sed instrumentum
non oportet esse quantumcumque magnum. Antecedens patet primo politicorum, sed
ut declaratur per instrumenta fistulatoris [illegible] et ruralis.
Nullus homo secundum rectam rationem potest appetere divitias
quantumcumque magnas. Probatur: nullus homo indiget divitiis quantum-
cumque magnis [illegible] et [illegible] bene sequitur quod nullus homo
secundum rectam rationem potest appetere plures divitias quam [illegible]
ad sustentationem vite et ad operationem virtutum. Contra: felix
felicitate speculativa [illegible] et paucioribus [illegible] appetere [illegible]
quam felix felicitate practica, quia paucioribus indiget,
quia solum indiget ad sustentationem proprie vite, sed
[illegible] ad opera practica seu politica [illegible] paucio-
ribus debent operare quam politici [illegible] paucioribus

[illegible] quod [illegible] quelibet operatio
[illegible] et in illo [illegible] est et per se tam mala sicut habitus ei
oppositus est bonus. Probatur: quelibet operatio tam [illegible] quam in [illegible]
[illegible] est [illegible] et mala [illegible] quod operatur [illegible] sibi opposito
[illegible] quia si operatur plus vel minus [illegible]

Utrum voluntati creator eliciens aliquem actum virtutis
cum bona intentione debeat aliquantum laudari cum illo qui eli-
cit consimilem perfecte vel eundem cum maiori virtute
quia quia dicit Thomas ethicorum 3 in olimpiadibus agonizantes
laudabantur etc. non dicit quod unus deberet magis laudari
quam alter sed quod equaliter debent laudari et quod bonus debet
in tantum laudari sicut alter etc. quia ad iustitiam distributivam
pertinet quod debetur cuicumque secundum meritum etc. et meritum sunt
sed quia isti equaliter merentur et debent habere equalia quia et ad propriam
patet 4° ethicorum etc. quia isti qui faciunt eque bonos
actus isti debent habere eque multum de premio quod equaliter
merentur. sed in politica ubi stipendiariis facientes consimiles
actus datur consimile et equale premium quamvis bonus illorum sit
in duplo virtuosior alio Contra quod etc. ethicorum magis virtuose
debetur magis premium sed sicut in aliud honor et premium debetur

ideo si datur honor plus debet honori et quod etiam plus de laude etc. si virtuosus
virtuosus non debet plus laudari tunc isti qui essent magis
virtuosi non darentur aliquod premium etc. et Boecius 3° de consolatione

talis homo etc. participat ultra dona cum deo in intellectu et operatione

totus homo et nobilior patet ex natura intellectiva et voluntate
et per propriam potestatem patet talis homo pessime agit sed ideo dicitur
nobilissimum aliud quod agit nobilissimas operationes sed ideo dicitur pessimum
quod agit pessimas operationes etc. homo talis virtute non utitur

rationis et ita elongat seipsum adeo quod prima homo contra
rationem quam nobilissimum homo et aliud aliquod operationes

non vult agere contra rationem etc. et patet agere et pessimum aliud ut
patet per rationes ad oppositum etc.

constat autem [illegible] rei corporalis [illegible] [illegible]
Nota primo quod res naturalis corruptibilis [illegible] [illegible]
[illegible] [illegible] durationem [illegible] res sunt [illegible]
[illegible] [illegible] [illegible] corrumpuntur [illegible] per appli-

caliditas frigiditate [illegible] [illegible] per remotionem [illegible]
sicut illuminatio medii per remotionem lucis corporis [illegible]

Secundo res [illegible] sunt duplices quedam simplices quedam composite

Simplices ut elementa composite ut homo asinus et cetera
corrupto illarum [illegible] solum fit [illegible] quia omnis corruptio [illegible] fit per
alterationem disconvenientem que corrumpit. Secundo notandum quod periodus
capitur dupliciter. Uno modo periodus [illegible] ad illud quod [illegible]

naturalis [illegible] [illegible] potest in aliam complexionem
accidentaliter mutari [illegible] quia si fleumaticus semper [illegible] calidis

[illegible] sive naturaliter fuisset frigidus et humidus [illegible] naturaliter
esset fleumaticus et accidentaliter [illegible] sanguineus [illegible] potest

[illegible] [illegible] et corporalis nisi [illegible] conservat [illegible] corrumpitur

cum 2. quinti probatur quia omnis corruptio in substantiis fit aliquo modo
elementum simplex non habet in se contrarium ad quod non habet in se principium sue
corruptionis Cor. 3° mixtum aduenit ea corrumpitur probatur quia qualitates
contrarie reperiuntur in mixto per quas continua fit actio et mixta
corrumpitur apud artistam quinti Cor. 4° simpliciter longior periodi
adductionem quam mixtum probatur quia tria via et corruptionis obi-
citur corpori quinto simplici mixto sed duo sunt intrinsece et extrinseca
2ª questio queritur utrum mixta corruptibilia quantum ad naturam speciei habent periodi
determinatam sive durationis probatur quia in singulis mixti corruptibilis
appetit aliam formam ut primo pio prior vel quia habet alia formam
et dimittit illam ergo habet corrumpi vel nunquam habebit eam et sic
appetitus materie esset frustra sine fine quod non est possibile Cor. 1°
2° quod ad naturam speciem periodum in diversis diversimode diversificatur
probatur 3ª questio nostrum actum est determinata periodi sive durationis
probatur quia actus corrumpitur per applicationem contrarii vel per corporum subiti
non sunt contraria nec subiectum talium corporum nec consumans remouetur
et non habent determinatam periodum quod habet ex diffinitione periodi ad
de lune solis in octaua specie Cor. 3° non quodlibet res naturalis
corruptibilis habet determinatam periodi sive durationis probatur quia lune
solis est subiectum naturale et res corruptibilis tamen non est determinare periodi
sui sui durationem quia est perpetua Cor. 4° quibus contrariis eius habet
determinatam periodum et particularem determinatam non tamen habet determinatam

Utrum mansuetudo sit virtus melior colericis quam flegmaticis

Quod sic arguitur quia virtus est circa difficilius, ista est melior; sed mansuetudo in colericis est circa difficilius quam in flegmaticis. Patet quod secundo ethicorum: circa autem difficilius semper ars et virtus consistit, [illegible] melior in [illegible] bonum, quia in colericis facilius resistere irae quam flegmaticus [illegible] passio et virtus mansuetudo est passio, patet quod secundo ethicorum [illegible] secundo rethoricorum ubi dicit philosophus mansuetudinem esse circa passionem irae. Non enim mansuetudo unus dicitur passio naturaliter inclinans ad non irascendum; isto modo sumitur apud secundum rethoricorum ubi dicit mansuetudinem esse circa iram. Et similiter in non loquendo quod dicitur quod talis homo est nimis mansuetus. Secundo sumitur habitus inclinans ad irascendum vel non irascendum ubi, quibus, quando, quomodo et circumstantiis aliis [illegible] isto modo sumitur apud quartum ethicorum. Hoc firma mansuetudo communis modo dicitur et virtus per rationem [illegible] quod intellectus de illa mansuetudine [illegible] mansuetudo dicitur et virtus per [illegible] inclinans ad operandum vel non operandum ubi quod [illegible] operari vel non operari [illegible] virtus [illegible] mansuetudo [illegible] [illegible] [illegible] mansuetudo [illegible] sicut ipsa et bona [illegible] quia [illegible] virtus [illegible] laudabilis [illegible] quarto ethicorum [illegible] colericis [illegible] mansuetudinem ipsa et bona [illegible] mansuetudo [illegible] [illegible] mansuetudo colerica [illegible] et bona colericis [illegible] colericis sicut mansuetudo [illegible] flegmaticis [illegible] [illegible] inclinat [illegible] ad operandum [illegible] [illegible] mansuetudo [illegible] flegmaticis [illegible] sicut mansuetudo [illegible] colericis [illegible] quia mansuetudo [illegible] operatione [illegible] [illegible] [illegible] [illegible]

Utrum nobiles ex genere prelaudandi sint nobilibus ex moribus

Arguitur quod sic quia principium nobilitatis generis est magnum principium ad nobilitatem morum, ergo nobiles ex genere [illegible] laudari. Patet quia natura que premisse patet quia principia sunt conservativa et nobiliora principiatis, sed [illegible] patet quia naturales virtutes disponunt [illegible] et inclinant ad bonos mores ut patet sexto ethicorum. Patet quod [illegible] nobilitas morum [illegible] simpliciter [illegible] nobilitas generis solum [illegible] quod nobilitas generis [illegible] nobilitas [illegible] simpliciter melior [illegible] [illegible] simpliciter et melius et laudabilius [illegible] virtutes morales [illegible] simpliciter bonum [illegible] sexto ethicorum [illegible] naturales [illegible] solum [illegible] quod [illegible] disponunt antecedenter ad virtutes morales. Dicitur permittentes meretrices publicas et sustinentes lupanaria seu prostibula in civitatibus fidelium peccant mortaliter et ipso probat per Gerson. Et credo quod illi communiter peccant gravius quam ille et multi sub occasione vivunt qui alias non peccaret.

Super pastor textu conciliorum et tempore dicitur [illegible] ubi dicitur non sunt meretrices de filiabus Israel neque scortator de filiis Israel. Super quo dicit beatus Hieronymus in epistola et glossa: turpitudine dicit [illegible] quod non meretrices esse et admittentes a lege prohibet dicitur quamvis publice venalis est turpitudo.

Et pastor et [illegible] doctores et textus [illegible] et deuteronomio [illegible] prohibet.

Dicitur mortaliter peccant permittentes et [illegible] fovent usurarios publicos iudeos vel christianos maxime [illegible] de usuris probat per Gerson. Ratio peccati permittendi et fovendi [illegible] usurarios sunt multi actus mortaliter peccandi quia alii peccant capiendo ad usuram propter indigentiam fovendo usurarios [illegible] peccare alii non depauperati per usurarios fovent [illegible] [illegible] sunt [illegible] alii respectu peccatis [illegible] usurarios [illegible] supplicia [illegible] et regna per illos usurarios spoliatur.

Pastor concilii [illegible] de usuris [illegible] de usuris ubi pastor [illegible] quo precipitur sub divine maledictionis [illegible] Glossa Johannis Andree [illegible] quod mortalia [illegible] debet [illegible] usurariorum [illegible] et sic [illegible] Johannis Andree non permittatur [illegible] [illegible] de terris expellatur. Ubi [illegible] [illegible] sunt excommunicationis sententia [illegible] ordinarios locorum ut [illegible] laycos censura ecclesiastica compellant [illegible] [illegible] Johannis Andree [illegible] canone [illegible] de usuris.

Item [illegible] concilio [illegible] expresse doctor solempnis scilicet magister Henricus de Hassia in tractatu suo de contractibus [illegible] [illegible] summariis [illegible] dicens [illegible] usurarios iudeos vel christianos fovent propter lucrum aut defendunt mortaliter peccant et plurimis causis [illegible] probat per [illegible] ad [illegible] parte. In quo etiam [illegible] usurariis dicit sic magister Henricus de Hassia: Summus pontifex [illegible] [illegible] in [illegible] et quilibet [illegible] [illegible] penam excommunicationis quod nemo [illegible] aut [illegible] publicis usurariis christianis aut iudeis [illegible] [illegible] de usura [illegible] divisi [illegible] peccatis mortalibus [illegible] qui eis credunt quod ab eis emunt [illegible] [illegible] pecuniis [illegible] quod [illegible] defendat et propterea quod [illegible] ipsos in [illegible] propter [illegible] lucrum fovent ut principes et alii potentes qui [illegible] [illegible] quod usurarie acquisierunt quia ipsos usurarios ad restituendum impotentes reddunt propterea ad restituendum obligantur [illegible] bona per usurarios extorserunt [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] Johannes Andree in novella [illegible] [illegible] [illegible] [illegible] usurariis [illegible] [illegible]

Dicitur non sunt immunes a peccato mortali permittentes hastiludia [illegible] maxime [illegible] ut [illegible] [illegible] [illegible] hominum vel [illegible] [illegible] probat quod etiam non de facili fiunt sine peccato mortali propter pompas nimias et [illegible] pauperes spoliantur [illegible] [illegible] [illegible] et maxime [illegible] alii [illegible] [illegible] hastiludia [illegible] occasio [illegible] ad [illegible] [illegible] et alii spectaculis [illegible] [illegible] ecclesie applicantur [illegible] [illegible] [illegible] concilio [illegible] [illegible] de torneamentis [illegible] hastiludia talia fiunt [illegible] [illegible] [illegible] [illegible] de talibus [illegible] [illegible] [illegible] [illegible] [illegible] ut [illegible] vulgo torneamenta vocant [illegible] milites [illegible] [illegible] et ad ostentationem [illegible] suarum et audacie temere congredi [illegible] mortes hominum et animarum pericula [illegible] [illegible] [illegible] [illegible] hastiludiis [illegible] [illegible] [illegible] de talibus [illegible] de torneamentis [illegible] [illegible] torneamenta [illegible] hastiludia [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] torneamenta [illegible] et isti hastiludia [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] baptismum ut [illegible] [illegible] [illegible]

~~Utr[um] deus cuius notitia infallibiliter cognitive et speculative sit eodem et totius universi solus invariabilis gubernator~~

Utrum deus cuius notitia infallibiliter cognitive et speculative sit eodem et totius universi invariabilis gubernator. Quod sic, probatur quia ad propositum patet ad Hebreos 4° capitulo: omnia nuda et aperta sunt oculis eius. Quantum vero ad secundam patet sapientie 8 capitulo: sapientia vincit malitiam, attingit autem a fine usque ad finem fortiter et disponit omnia suaviter. Sic autem probatur quod deus vincit malitiam fortiter et suaviter sic finitur quod disponit sive regit invariabiliter.

~~[illegible] est velle [illegible] intellectu~~ et patet argumento quia si intellectu perfecto intelligeret scilicet non aliud a deo sunt esse eius perfecto quo sic esset aliquid eo nobilius quod non aliud ab eo sunt esse intellectum seu cognitum ab ipso. Sic et de velle.

Contra autem si totum gubernatur ab uno, sibi invicem non differunt nisi [illegible] aut impotentia gubernatoris quod a deo removetur. Sed res invicem differunt immo sibi invicem repugnant ut in contrariis apparet. Non ergo mundus gubernetur a deo quia deus solus gubernat, tunc invariabiliter.

Boetius 3° de consolatione: qui solus bonus sunt, bonis regimine se videt et quod dominus non est bonus regimine [illegible], quod possent non, [illegible] et bene solum. Quod notitia prout abluit et speculativa aut [illegible] simplex apprehensiva aut complexa seu propositionalis indicativa [illegible] antisiodorensis libro primo dicens quod scientia dei quedam sunt notitia verorum aliorum, cognitio contingentium et alio plures dicere [illegible] dei cognitio seu notitia tamen apprehensiva quam indicativa non est alia quam divina essentia simul in cognoscendo actualis.

Primo de ratione formali divine essentie est quod ipsa sit purus actus, prout etiam philosophi testantur et impossibile est quod ipsa aliquid noscat per notitiam que non est ipsa, eo quod tunc actuaretur actu superaddito respectu cuius possit esse in potentia. Et cum ipsa sit cognitiva tam apprehensive quam indicative eo quod hoc est perfectionis simpliciter ~~[illegible]~~ et patet ex conclusione premissa tamen suppositum in prima quo sit [illegible]. Et quantum [illegible] et verbum [illegible] quod allegat magister dicens: 3° primi ubi dicit scientia dei est ipsa sapientia, sapientia est ipsa essentia [illegible].

Quod dei notitia tam apprehensiva quam indicativa simpliciter est infinita, patet cum ei sit essentia divina que est actualis tamen in cognoscendo quam in essendo eo quod ex opposito repugnat sibi potentia et necessario prout quantum ad omne id quod perfectionis est summa actualitas, sed consequenter quod [illegible] [illegible] [illegible] non [illegible] contingentibus a successione [illegible] [illegible] [illegible] [illegible] [illegible]

Conclusio 2a. Essencia divina est noticia actualis omnium tam complexorum quam incomplexorum cognoscibilium determinatissime apprehensiva. Probatur primo sic: nam sequeretur quod ipsa non esset noticia apprehensiva immensa. Falsitas patet ex [illegible] premissis / et [illegible] patet quia si aliquorum cognoscibilium sive complexorum sive incomplexorum non esset noticia apprehensiva, tunc aliquorum apprehensibilium non esset apprehensio eo quod omne cognoscibile est apprehensibile, et per consequens non adequate [illegible] actualiter se extenderet eius apprehensio, quare ipsa non esset apprehensio actualis immensa. [illegible] theologus prima secunde q. lxxxviii ar. ii. peccatum veniale a venia

primo modo dicitur [illegible] aliquod peccatum dici veniale [illegible] quod est veniam consecutum

2o dicitur aliquod quia omne peccatum per penitentiam fit veniale. [illegible] dicitur veniale ex eventu [illegible] [illegible] veniale quod habet [illegible] [illegible] veniam [illegible] [illegible] vel toto vel in parte in parte [illegible] sicut cum habet aliquid in se diminuens culpam ut cum fit ex infirmitate vel ignorantia. [illegible]

3o modo dicitur veniale ex causa in toto aut ex eo quod non tollit ordinem ad ultimum finem. [illegible] non meretur penam eternam sed temporalem [illegible] [illegible] [illegible] [illegible] quod non habet [illegible] [illegible] aliquod [illegible] sed veniale [illegible] [illegible] [illegible] [illegible] [illegible] aliquod peccatum [illegible] veniale ex genere et aliquod mortale ex genere sed [illegible] [illegible] [illegible] [illegible] [illegible] ex obiecto [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] repugnat caritati [illegible] [illegible] ordinem ad ultimum finem peccatum ex suo obiecto habet quod sit mortale. [illegible] est mortale ex genere sive sit contra dilectionem dei sicut blasphemia periurium et [illegible] [illegible] contra dilectionem proximi sicut homicidium adulterium et [illegible] [illegible] [illegible] peccata mortalia ex suo genere [illegible] non voluntas peccantis [illegible] in id quod in se continet [illegible] [illegible] [illegible] non tamen contra dilectionem dei vel proximi sicut [illegible] [illegible] [illegible] superfluus et alia [illegible] et talia sunt peccata venialia ex suo genere.

Sed quia actus morales recipiunt rationem boni vel mali non solum ex obiecto sed etiam ex aliqua dispositione agentis ut supra habitum est. [illegible] contingit

Nota — [illegible] peccatum veniale ex genere ratione sui obiecti mortale fit ex parte agentis vel quia in eo constituit finem ultimum vel quia ordinat ad aliquid quod est peccatum mortale ex genere. puta cum aliquis ordinat [illegible] [illegible] ad adulterium committendum. [illegible] et ex parte agentis contingit quod aliquod peccatum quod ex genere suo est mortale

Nota — fit veniale [illegible] [illegible] quod actus est imperfectus [illegible] non deliberatus rationi [illegible] est principium proprium mali actus [illegible] supra dictum est de [illegible] motibus infidelitatis.

[illegible] veniale [illegible] ad mortale [illegible] [illegible]

et differunt

thomas p[rim]a s[ecund]e q. 88 art. 3 peccatum quod est veniale ex genere non disponit ad mortale ex genere cum diversa sint specie. Sed secundum hoc unum peccatum veniale potest disponere per quandam consuetudinem ad peccatum quod est mortale ex parte agentis / augmentata enim dispositione vel habitu per actus peccatorum venialium intantum potest libido peccandi crescere quod ille qui peccat finem suum constituit in peccato veniali / nam unicuique habenti habitum in quantum huiusmodi finis est operatio secundum habitum et sic ex multis frequentatis peccatis venialibus disponitur ad peccatum mortale. Tertio alius actus humanus disponit ad aliquid removendo prohibens et hoc modo veniale peccatum ex genere potest disponere ad peccatum mortale ex genere / qui enim peccat veniale ex genere praetermittit aliquem ordinem et ex hoc quod consuescit voluntatem suam in minoribus debito ordini non subicere disponitur et ad hoc quod etiam voluntatem suam non subiciat ordini ultimi finis eligendo id quod est peccatum mortale ex genere

Cum vero voluntas fertur in id quod secundum se continet [illegible] inordinationem non tamen contrariatur dilectioni dei et proximi sicut verbum superfluum risus [illegible] et alia huiusmodi talia sunt peccata venialia ex suo genere

Conclusio 1a Licet cuilibet peccanti actualiter mortaliter utilissimum expediat
quod quibuslibet peccatis conteri specialiter non tamen quibuslibet de necessitate salutis
ad hoc obligatur etc.
Prima pars probatur quia per talem satisfacit pro quibuslibet contritio illa cum valet ad minus ad
aliquantam penae deductionem ubi sine culpa est dimissa. Et quanto
est magis extimata specialiter cum quolibet peccato tanto est utilior
quia talis additur talis facit magis etc.
Tho. de Ar. Item praedicta extimatio actus contritionis circa singula peccata
quae potest homo invenire valet ad gratiae receptionem seu augmenti
consummationem specialiter utile etc.
Tho. Ar. Item considerandum quod licet in susceptione primae contritionis licet expellat peccatum
non tamen expellit inclinationem ad peccatum et non nisi quaedam
morbida inclinatio tollatur perfecte per multiplicem displicentiam quae
contra contritionem singula peccata singulariter deploravit. Et de facili
penitens recidivaret [illegible] in peccatum cum nonnisi posset
esse periculosius prioribus ut dicitur Luce 11. Ergo contritio de singulis
peccatis specialiter talia [illegible] et utilissima utilis.
Secunda pars probatur quia sicut una contritio vel illa sufficit ad salutem
Et aliquis qui sunt in pluribus peccatis ex respectu speciali solum
ad unum peccatum cum displicentia seu detestatione propter
ut ad ultimum speciali ~~[illegible]~~ sub ratione defectus
huius respectus potest concipere contritionem aliquam. Ergo talis
talis contritio talis sufficeret ad salutem et per consequens non tenebitur
de necessitate salutis de aliis peccatis habere contritiones speciales. Similiter non
Prima pars antecedentis probatur quia vera contritio debet actu penitendi
caritate informata tunc caritas aut quaecumque prima
sufficit ad remissionem quorumcumque et quantumcumque peccatorum
salvo quod ad culpam et per consequens sufficit ad salutem
Secunda vero pars antecedentis probatur [illegible] quod sunt in pluribus peccatis etc.
quia sicut contingit in illis qui sunt in peccatis mortalibus
multis per tempus quo sunt insufficienter contriti [illegible]
contritione seu gratiae in spatio insufficientiae sunt impeniti

Sed homo non potest impossibiliter recogitare singula peccata cum mens
humana non possit simul intendere ad singula peccata sub
distinctam rationem cuiuslibet peccati et per consequens non potest habere
distinctam displicentiam de quolibet peccato. Ergo talis de quo
certum est potest solum in respectu cum displicentia ad unum
peccatum in speciali ut et ad ultimum in speciali et sub ratione distincta.
Alias sequeretur gravem et insufficientem
Item sequeretur quod aliquis qui diu perduravit in peccatis multis
despicabilis non potest ullo modo omnium peccatorum suorum singillatim et particulariter
reminisci et quantacumque diligentia apposita. Ergo talis non
tenetur de necessitate salutis de omnibus habere contritionem distinctam et specialem
propter suam impossibilitatem quia ultra posse nemo [illegible] de lege requiri
et tamen talem possibile est salvari etc.

Conclusio 2a Cuilibet peccanti actualiter mortaliter tenetur de necessitate salutis
pro peccatis omnibus simul habere contritionem ad minus implicitam et
generalem
Probatur quia quaelibet contritione et reconciliatione quilibet talis tenetur
praedilectae peccatorum conteri ac Deo reconciliari. Sed pro praedictis contritionem
non tenetur de necessitate salutis de singulis specialiter. Ergo secundum quod tenetur saltem
de omnibus simul seu implicite vel generaliter maxime cum unum peccatum
mortale non dimittitur sine aliis ut alias ubi supra plenius.

Conclusio 3a Contritio non requiritur de necessitate salutis aliquando pro peccatis actualibus
venialibus de lege conteri ut penitentia requiritur tamen hoc tempore
expedire penitenti tali tempore quam pro futuro
Prima pars conclusionis probatur quia sicut omnis decedens absque peccato in gratia et caritate
salvabitur sed aliquis decedit absque peccato sive peccato mortali
licet cum multis venialibus ut patet de eis qui decedit cum gratia et
caritate [illegible] non [illegible] per sola venialia
non excluditur gratiam vel caritatem [illegible] cum in alia vita non sit penitentia
[illegible] talis homo salvabitur sine contritione seu penitentia [illegible] de
peccatis venialibus et per consequens non sunt de necessitate salutis [illegible] de lege
conteri ut penitentia.

Secundi patet quia [illegible] contritio et penitentia pro venialibus et tempore confessionis ... sufficit ... requiritur tamen expediens autem patet per predicta et propter [illegible] deduci [illegible] aliquis penitendo de venialibus melius potuit [illegible] de mortali ad quod venialia [illegible] ... ut dispone[illegible]

Tertium] Pro delictis peccati actualis delectatio ... requiritur de necessitate salutis in penitentie contritio distincta et specialis vel generalis patet hoc de venialibus peccatis

preter philosophicas disciplinas que ratione humana investigantur. primo quidem 179
quia homo ordinatur ad deum sicut ad quendam finem qui comprehensionem rationis
excedit secundum illud Isaie 64 oculus non vidit deus absque te que
preparasti diligentibus te. finem autem oportet esse precognitum hominibus qui suas
intentiones et actiones debent ordinare in finem. unde necessarium fuit homini
ad salutem quod ei nota fierent quedam per revelationem divinam
que rationem humanam excedunt. Ad ea etiam que de deo ratione huma-
na investigari possunt necessarium fuit hominem instrui revelatione divina. quia
veritas de deo per rationem investigata a paucis et per longum tempus et cum
admixtione multorum errorum homini proveniret. a cuius tamen veritatis
cognitione dependet tota hominis salus que in deo est. ut igitur salus homi-
nibus et convenientius et certius proveniat. necessarium fuit
quod de divinis per divinam revelationem instruantur. necessarium igitur fuit etiam
preter philosophicas disciplinas que per rationem investigantur sacram
doctrinam per revelationem haberi. ~~[illegible]~~

motio. Et di. 1a p. c. n. dividit motum creationis. Primo ex illo motu ostendit rerum
distinctionem. 2o monstrat quandam incidentem questionem. Et ponit eius triplicem solutionem
et epylogat et declarat in hac parte. Ut ibi Quod autem. 3a ibi [illegible] ex his potest
premissis [illegible]. Capitulum istarum in 2a parte n. ponit rerum distinctionem. 2o [illegible] et declarat ostensum
circa productionem creaturarum rationabilium. 3o addit aliqua et declarat ostensum
4o removet dubium quoddam predictum in scriptura. Et sic finit lectio et divisio in generali.
In speciali non magis sit procedit. Et primo ponit. Dicit quod est creationis rerum sola
bonitas dei seu creatoris quia cum potens et volens et nullum non potens
seu non valens. Deinde dicit quod perfecta creatura bonitatis [illegible] et creatura nisi
deus perfecte [illegible]. Sed quare fecit deus creaturam rationalem videlicet
angelum et hominem. Respondet quod angelos et homines fecit propter dei bonitatem et
distinxit eam sic ut pars unire corpori videlicet homines et pars in sua puritate
corpori non uniretur remanet scilicet angeli. Unde dicit quod est creatura sunt homines
tales sunt ut ex ea sequatur utilitas creature. Creavit n. deus homines
ad se laudandum et sibi serviendum ex qua laude homo et spiritus perficere
pater et [illegible]. Postea declarat concludendo quod creatura rationalis facta est propter dei
bonitatem et suam utilitatem. Ubi et magis addit quod mundus creatus est
propter homines quia cuncta utilitas ex [illegible] rebus creatis homo perveniat. Et subdit
quod non solum creatura corporales sunt ad homines perveniri sed et ipsi angeli ad homines
perveniri facti sunt. Consequenter magister dicit quod [illegible] alibi legi in scriptura quod ho[minem]
[illegible] sit [illegible] angelicam ibidem magister quod non est totum [illegible]. Sed
[illegible] sit unita corpori. Et dicit [illegible]
[illegible] sit [illegible] quomodo sit unita corpori. Et dicit dist[inctio]
[illegible] [illegible] unio
[illegible]

De angelica itaque natura. [illegible] Ista est distinctio [illegible] de eadem rerum in generali
[illegible] Ista dicit [illegible] in speciali. Et dicit ista p[ar]s in 2a p. c. n. [illegible]
de creatura [illegible] spirituali. Primo de creatura pure [illegible] 2o de creatura media
[illegible] 3o de creatura [illegible]
[illegible]
[illegible]
angelorum [illegible] Hec omnia [illegible]
n. [illegible] tempore creationis angelorum. Primo locum. 2o recapitulat dicendum. [illegible]

monstrat incidentem questionem et solvit eam. Ut ibi Jam omnia [illegible] que creati sunt
[illegible] Ut ibi Hic queri solet si in celo empyreo. Capitulum in 2a [illegible] n.
[illegible] Postea [illegible] distinctionem. Primo [illegible] tempore creationis opponendo ad
[illegible] parte [illegible] 2o declarat [illegible] 3o monstrat
[illegible] [illegible] esse deus [illegible] Ut ibi [illegible]
[illegible] Ut ibi [illegible] Et [illegible] super [illegible] ad [illegible]
[illegible]

In speciali non magis sic procedit. Et ponit primo quod de angelica natura intendit
primo dicere. [illegible] et ubi declarat et creata sit et qualitate angelorum sive
[illegible] ad creationem sit [illegible] ad [illegible] sit [illegible] ad ordines donorum officiorum
nomina distinctionem. Deinde [illegible] creata [illegible] creaturas
creata est angelica natura [illegible] primo omni creata est spiritualis angelica natura [illegible]
[illegible] Hoc magister salvat
[illegible] sit creata est angelica natura et tota creatura [illegible] ubi
[illegible] Et hanc [illegible] magister confirmat
[illegible] [illegible] creatura est [illegible] Deinde ponit [illegible]
[illegible] que [illegible] esse [illegible]
[illegible] Postea dicit quod in celo creati sunt angeli et de celo [illegible]
[illegible] celum non est firmamentum quod videmus sed est celum empyreum vel
igneum [illegible] sit illuminatum. Et [illegible] magister [illegible]
Postea concludit quod sit creatura sunt corporalia et spiritualia. Et subdit quod [illegible]
creatura fuit creata informis [illegible] et [illegible]
formis [illegible] confusionis [illegible] [illegible] et distincta [illegible]
[illegible] informis [illegible] Ultimo [illegible] si angelorum
creaturas sit in celo. [illegible] Deus voluit ascendere. Unde [illegible] celum accepit
[illegible] celestine. [illegible]

Hec omnia [illegible] distinctionem magister de loco et tempore creationis
angelorum. Hic vero [illegible] Et dividitur
in partes [illegible] Dividit [illegible] que [illegible] accipiunt
[illegible] ad [illegible] ad ordines et officia [illegible]
[illegible] est
[illegible] [illegible] ad dona
[illegible] ad [illegible] ad dona [illegible]
[illegible] dignum [illegible] videndum [illegible]
n. [illegible] angeli receperunt. [illegible] ad [illegible]
ad recepta dona. Ut ibi Hic considerandum. [illegible]

In speciali non magister procedit et ponit primo quod et fuit esse qualis angelorum confidet quod in principio receperunt sed esse simpliciter defectu personali vigore cognitionis et libertatis arbitrii. Et post duo ponunt ad solutionem quorum ad fortitudinem quantum ad potentiam. Circa contra quoniam utrumque ista quod in sua angelis esse fortitudo et dicit quod non primo magister et in [illegible] d. n. quod dicit contra rigorem esse et fortitudinem acceperunt quam alia. ita et quod dicti angeli simplicitatem essentie et fortitudinem acceperunt quam alii. Circa quod dicit quod ipso eminentem cognitionem perspicaciorem acceperunt quam alii. Circa quod dicit quod per se dicitur naturas secundum ideo divinas cognitionis et ita divina arbitrii libertatis ita tamen quod persistat in gradu et horum libertate primo magister et in [illegible] nulla in [illegible] in natura

nulla ignorantia intellectus nulla necessitas de corporibus [illegible] intelligentia in corpore libero arbitrio intelligatur. Circa quod dicit quod omnis [illegible] in natura in simplicitate in gradualibus et in corruptibile. Ultimo dicit quod corporum distinctiones solus ipse comprehendit qui eos creavit et tunc sequitur illa pars.

Illud quoque investigatione dignum esse videtur, ubi magister distinxit angelorum qualitatem sunt cognitionis quantum ad constitutionem pro aliquo evidenter est sciendum quod quando

non dixit

fecit ut redderet bonitatem voluntatis illuminat item et elicit dilectionis actum. Et primum hic ista pars di. 2. c. 2. n. dicit de bonitate et in angelorum creatorum primo de corporum cognitione 3. de corpore dicitur. Circa illud hoc est quod sequi que 3. illorum quia. Circa c. 2. c. n. monet queritur. Sed tangit et etiam utrumque opinio et ipsum autem confirmat 3. ponit et hic dubio. Circa illud conspiciunt. n. quod dicit 3. i. Illius autem vide et in hoc circa cet.

In speciali non procedit magister et querit utrum angeli fuerint creati boni et utrum aliquo modo fuerint in creatione lapsi. Circa quod ponit opinionem quorundam dicentium angelos malos esse fecisse mortem in creatione eorum lapsu. Et hic confirmat per dictum domini in Iohanne dyabolum fuisse homicidam ab initio et in veritate non stetit. Et autem Iob dicit dyabolum esse initium figmenti dei ad illudendum ei quem creavit angelos qui persisterunt fuisse creatos perfectos et bonos et utrumque [illegible] confirmat autem. Circa quod ponit aliam opinionem quorundam dicentium angelos omnes fuisse creatos bonos et iustos quantum ad creationem mali et in bono iusticie [illegible] confirmatos tamen semper mortem fuisse in creatione lapsu. Dein hanc opinionem confirmat autem [illegible] genus qui facit tales rationes quod creatore optimo non potuit malum creatum fieri. Quia si malum angelum deus fecisse in eo malicia non putuit nisi fecisset. Circa quod dicit omnia naturaliter bona. Circa postea solvit auctoritates contrarias dicens quod dyabolus dicitur homicida ab initio quia proiecit bonum figmentum dei quod primum post ipsum lapsum. Et ordinavit. ante bonum

de ipsius malicia exemplum quasi sed ex [illegible] perstiterunt ut fideles [illegible]. Et magister dicit quod dyabolus dicitur in veritate non stetisse atque non recidisse [illegible] malus creatus fuisse. Fuit autem bonus creatus ab initio in statu primo in tempore [illegible] creatione. Sed [illegible] occidit ut dicitur dyabolus homicida ab initio creationis [illegible] per invidiam falsitatem seducendo hominem occidit et sicut ponitur confirmat [illegible] originis [illegible]. Circa hanc post istam opinionem sic confirmatam concludit dicens quod angeli ab initio fuerunt creati boni et sine [illegible] et notitia boni et mali habuerunt. In speciali non magister procedit et ponit primo queritur utrum angeli fuerunt creati beati vel miseri. Et tunc [illegible] quod angeli non fuerunt creati beati ut miseri. Et specialiter [illegible] quantum ad malos dicit quod non fuerunt creati miseri quia non statim peccaverunt. Miseria autem peccatum consequitur. Ex quo autem ceciderunt et peccaverunt non fuerunt creati beati quia sui status ut eventus [illegible] non habebant. Circa [illegible] quantum ad bonos angelos quia per angelos boni angeli sunt statim perfecerunt. libidinosa concupiscentia. Et sic a Christo excludit originale quia non fuit ab Adam descen-

Utrum habitus methaphysice dignior et perfectior sit omnibus aliis habitibus
speculativis acquisitis. Et arguitur primo quod quod sit falsum, habitus prudencie
est dignior et perfectior, igitur quod falsum. Consequencia tenet quia ille habitus est melior sine
quo impossibile est operacionem veram vel virtuosam esse bonam. Sed sine
habitu prudencie impossibile est operacionem veram vel virtuosam esse bonam, igitur etc. Sed scientia est de prudencia

In oppositum arguitur quod quod sit verum [illegible] habitus speculativi sunt nobiliores et perfectiores

speculativa est melior vita practica, probatur [illegible] [illegible] multi philosophorum [illegible]
